The highest caliber personal German Shepherd protection dogs the world has to offer!

Mrazovac K9 WORLD CLASS EUROPEAN BLOODLINES TOP EUROPEAN SCHUTZHUND TRAINERS BUYDIRECT AT REASONABLE PRICES Protection Dogs All dogs guaranteed to: Obey - your whispered commands off-leash. Protect - relentlessly and unmatched until given his "release" command. We are not dog brokers who sell Schutzhund (sport) titled dogs for ridiculous (\$20,000 and more) prices. We are trainers who have the 'real thing' - dogs that are trained from an early age to protect you and your family in real situations and not just how to bite an arm sleeve on a training field. Although most of our dogs have excellent pedigrees, they are not selected just for their paperwork. They are selected for their individual health and temperament which is correct for the demands of our program. Our dogs are friendly and dignified. Aggression is only displayed on your command or in the face of a direct threat. All our dogs come from one trusted source, Branko Mrazovac of Europe. Branko, with over 35 years experience, personally selects the best young dogs Europe has to offer. There are no middlemen in our program jacking up our prices. Dogs come straight from a top European breeder/trainer to our training program. Our dogs will not be out performed in obedience or protection anywhere in the country. We take such great pride in the quality of our dogs that we guarantee the dog's training for life..
