## Todorhaus German Shepherds

<http://www.todorhausgsd.com/>

We breed our Shepherds for sound temperament, good health and longevity, plus to be able to do what they were bred for - a working dog. We only use dogs in our breeding program that are OFA certified.

Todorhaus German Shepherds We breed our Shepherds for sound temperament, good health and longevity, plus to be able to do what they were bred for - a working dog. We only use dogs in our breeding program that are OFA certified. We breed one or two litters a year. We feel that any more than that is not fair to the puppies. They need lots of attention, and let's not forget the older dogs. They need attention too. Todorhaus has predominantly American lines, but occasionally we do breed to German lines. We do a great deal of conformation showing, but our dogs also work in herding, agility, and tracking, and I have always donated some dogs to the service community. We do not donate to individuals, only to the organizations. Todorhaus lines have blacks, sables and the traditional black and tans.
