Long coat German Shepherd puppies in Wichita, Kansas

Guardian Angel German Shepherds make wonderful companions and are great family members. We believe that we give them the right start to go on to do what they were bred or trained to be. We strongly believe in training and socialization for all our dogs. Our german shepherd puppies make great pets or go on to be working dogs, show dogs, therapy dogs. We breed the different and highly desired white shepherds, long coat german shepherds, and traditional working and show lines from Europe. Our puppies are whelped indoors in their own birthing suite with their mother. Mother has a whelping box and puppies have a play pen area. They are weighed, touched, and monitored daily. They are exposed to sounds, music, noises, and the Early stimulation program. At 4-5 weeks they are moved to an outside area so they can enjoy the outdoors. Our puppies are kept for at least 49 days and then evaluated for temperament and placement. Our puppies come with our guarantee. Our long coat white german shepherd puppies are stunningly beautiful, agile, intelligent and strong in character. They have amazing drive and attitudes built for easy trainability. We produce long haired puppies, short coats, sables, bicolors, and white german shepherd puppies. They have rock solid nerve bases to produce well mannered, playful, affectionate, loyal and well balanced family members. All content of this listing belongs to the Owner in this Listing!
