It helps lawns recover fast from pet urine damage and helps remove pet urine spots in lawns. It helps heal brown spots and urine burns in grass. It improves lawn appearance rapidly healing brown spots and pet urine damage. Product Description Create a healthy environment for your family and pets. Tinkle Tamer is a natural, organic soil treatment for pet and non-pet owners. Create a healthy environment for your family and pets. Tinkle Tamer is a natural, organic soil treatment for pet and non-pet owners. It repairs brown spots and burnt grass from dog urine and other pet urines. It will help the lawns recover quickly with a natural organic product that is safe for everyone. The lawn damage and brown spots from pet urine don't need to be a problem any longer. -- Tinkle Tamer works above and below the soil line resulting in:

- Increased stress tolerance
- Reduced soil compaction
- Increased fertilizer uptake
- Increased water holding capacity which means less watering
- Greater root mass
- Increases the speed of seed germination
- Stimulation of microbial activity, which helps alleviate yellow spotting from dog urine

-- For best results follow a basic fertility program that consists of:

- Applications of organic granular fertilizer spring summer and fall
- Aeration spring and fall
- Reseeding dead areas
- Regular applications of Tinkle Tamer

Tinkle Tamer is a foliar applied product that is immediately available to the plant. Let the product sit for an hour before watering in. It is not necessary to water product in. You should see results within two-four weeks.
