Vom Grysycos kennel "One of our puppies" Our kennelOur kennel was established in 1991 under the name "vom Grysycos." Our breeding goal is the universal GSD. As our primary focus we are breeding working type GSDs, but the standard type is important to vom Grysycos kennel also. "A sound mind in a sound body" phrase succinctly expresses what the purpose is. Our dogs here at home and abroad have been proven, national championships, U.S. championships, both WUSV and world cups. It is important for us that our dogs pass through working and healthy filters. The training is not only an obligation but also a joy. A variety of dog sports branches have tried ourselves and our German Shepherd dogs too: IPO, agility, rescue dog and working. Our philosophy: the German Shepherd breed is versatile, so let's use these abilities! Have fun at our site!" Nathalie and Gora"
