K9 Union is dedicated to preserving the quality and integrity of the classic German Shepherd from Europe.

K9 Union Importers K9 Union is dedicated to preserving the quality and integrity of the classic German Shepherd from Europe. Our mission is to enhance the instinctual intelligence and beauty of this breed. Our dogs have the traditional black and red color with a thick mane and an overall statuesque appearance. They appear intimidating and powerful in their look and have the same ability in their character. They have sound characters and temperaments and have the demeanor of a loyal friend and protector. All of our sires and dams have show experience and Schutzhund titles. Our German shepherds are our pride and joy and we are more concerned with maintaining the quality of the line than in the quantity that we sell. All of our German Shepherds have 100% of the finest German bloodlines. All our sires and dams must be shown at least two times and have hip certifications before they are allowed to breed. All of our dogs are tattooed in their ear to further ensure their pedigree.
