Darkstar German Shepherds

<https://darkstargsds.webs.com/>

Darkstar German Shepherds has been a breeder of quality German Shepherds since 1983.

Darkstar German Shepherds Darkstar German Shepherds has been a breeder of quality German Shepherds since 1983. We have had over thirty years of happy matches. We believe in matching the owner with the right pup. We breed for intelligence, personality, looks, and health. "Get a big head with something in it." Our litters usually contain: long coats, plush coats and standard coats. With years of experience, and pups full of personality, let us match you with your ideal companion. Our dogs are raised in our home. They are loved and cared for from the start. When you take your pup home, you will know it has socialized and it will be ready to join your family.
