Click the Image Directly ^{^^^Above^^^} for More Information, Current Pricing and Availability. A good jewelry cleaning cloth to keep the outside polished and the inside clean. Sabona medical id bracelets combine the functions of alerting medical emergency personnel to a medical condition as diabetes with a style trend the consumer will wear. Sabona med id bracelets comes package in a presentable clear clamshell. Product Description: GSDsite.com Sabona Medical ID Bracelets combine the function of alerting emergency personnel to a medical condition such as diabetes with style trends the consumer will wear. The Ladies' Medical ID bracelet combines gold plating and polished stainless steel, making it perfect for casual wear but upscale enough for dress! Sabona Medical ID Bracelets contain 1200 gauss Samarium Cobalt magnets! Sabona chooses Samarium Cobalt magnets for long term durability and rust resistant qualities. Your wrist size will be very close to the size of the bracelet you need. Be sure to consider how loose or snug you want your Sabona to be. Typically, you want a link bracelet to fit more loosely. If a link bracelet is too snug, it will tend to hang up on your skin due to body moisture. Sizes are S/M (7.0") and L/XL (8.0"). To clean your Sabona bracelet, use a good jewelry cleaning cloth to keep the outside polished and the inside clean.
