Independently tested for safety and purity at NSF, NASC & cGMP labs. Made in USA. **RISK FREE GUARANTEE:** Finish the bottle and if you're not delighted with the results, we'll give you all your money back. Please read all label information on delivery [Product Description](#) [GSDsite.com](#) **Why is Rejensee the Best Glucosamine Supplement for Dogs?** 1. You can expect to see fast, dramatic results. **7 DAYS:** many of our customers begin to notice their pet moves with less pain and stiffness. **30 DAYS:** dogs who have been barely able to move roll back the years and walk, run and play just like they used to. 2. Rejensee is better than tablets or chews **Liquid Rejensee** delivers more glucosamine for cartilage repair because it is absorbed faster than tablets or chews 3. Made with the best ingredients **Every natural drop** contains the best ingredients, trusted and recommended by veterinarians and 3rd party tested for safety and purity. 4. Rejensee gives your pet a dose that works. **Not all glucosamine supplements are the same.** Many contain levels of glucosamine well below the recommended dose. 5. Easy to use and even the pickiest dogs love it **Our liquid mixes easily with food or water** to take the hassles out of supplementation. 6. Rejensee reverses joint damage transforming your pet's life. **A healthy dog's joints are protected by cartilage** which acts like a cushion between the bones in a joint. Dogs suffer joint problems and painful arthritis as their cartilage wears out. Rejensee quickly repairs and rebuilds the protective cushions of cartilage. 7. **Risk free** Give your pet the recommended daily dose until you've finished the bottle. If you're not delighted with the results we'll give you all your money back. **No Questions Asked.** Give your dog Rejensee; the best glucosamine supplement and watch their happiness and energy return as their pain and discomfort disappear.
