Hena-C Kennel German Shepherds

<http://www.vonhena-c.com>

We love to show off our kennel and our German Shepherd dogs!

Hena-C Kennel German Shepherds Our dogs are OFA certified for HIPS, ELBOWS, CARDIAC, THYROID, DEGENERATIVE MYELOPATHY We start creating our list for owners of our puppies as soon as the breedings take place. You may put your name on a waiting list and deposits are taken at any time. A German Shepherd puppy will not be held without a deposit. All deposits are transferable to other German Shepherd litters, if you need to wait for your perfect puppy! The German Shepherd puppies can be viewed for the first time after birth at 4 weeks of age and they will be ready to go home at 8 weeks of age. Because of the strict breeding selection measures in the former DDR, the current "East dogs" will catch anyone's eye because of their dark pigment, strong, heavy bone structure and stocky builds. These lines also tend to be much more healthy and lack the kind of issues that other lines have. The German Shepherd Dog that has developed in former East Germany with the big bones, broad heads, well balanced character, beautiful rich dark colors, is no phenomenon!! This type of German Shepherd Dog has been very unique and I wish to keep this for the future. So as a lover and admirer of the DDR/East German Shepherd Dogs, I want to preserve what is left of these wonderful dogs and their rare bloodlines. I also have added the Czech bloodlines because they are the same type and carry many of the great DDR/East German Dogs in their pedigrees.
