Out of love and respect for German Shepherds

Kennel "von Abgrund" was born in 2014 in Sibiu after a long journey on the plane canine, closely related to German Shepherd. "Abgrund" in German means - the abyss, the abyss very deep - and was shaped under the first dog kennel arrived, Abis von Turenhof. All this dream became a reality began in the '94 - '95, when I was in high school. With the work done and with financial help of my aunt I was able to buy the first chicken breed German shepherd with pedigree of Nemo von Rotlichwolf and Afrodite of Witenberg, being the only one in Sibiu at the time. Since then I have come a long and beautiful track that I nurtured and developed a passion for the breed, accumulating daily experience, the desire to sustain movement in Romania German Shepherd. In 2008 we began a program of acquisitions and we continued to build monte kennel. Specimens that we have at the moment, from the most recognized lines German forces present in tree being found the name of the largest breeders of the world (Scott von Deodatus, Ursus von Batu, Nero will Nobachtal, Zampa von Temodal, we Quenn Loher Weg, Pakros d'Ulmental, we Larchenhain Hoss) who confirmed over the years by their byproducts, breeding value (Wells aus Agrigento, Dax Intercanina, Furbo degli Achei, du Haut Mansard Vegas, we Paer Hasenborn), culminating in recentii (Arex von der Wilhelmswarte, Etoo aus Wattenscheid, Pepe will Leithawald, Urbo we Leithawald, Leon will Schollweiher). The latter are parents and grandparents of our dogs. Canisa "von Abgrund" a luat nastere in anul 2014 la Sibiu, in urma unui indelung parcurs pe plan chinologic, strans legat de rasa Ciobanesc German. "Abgrund" in limba germana inseamna - abis, prapastie foarte adanca - si s-a conturat pe baza primului caine sosit in canisa, Abis von Turenhof. Tot acest vis devenit realitate a inceput in anii '94 - '95, pe vremea cand eram in liceu. Cu temele facute si cu un ajutor financiar al matusii mele am reusit sa achizitionez primul pui din rasa ciobanesc german, cu pedigree, din Nemo von Rotlichwolf si Afrodite de Witenberg, fiind si unicul din Sibiu la acea data. Din acel moment am parcurs un lung si frumos traseu care mi-a hranit si dezvoltat pasiunea pentru aceasta rasa, acumuland zi de zi experienta, din dorinta de a sustine Miscarea Ciobanesc German din Romania. In anul 2008 am inceput un program de achizitii si am continuat cu monte pentru a pune bazele Canisei. Exemplarele pe care le detinem in momentul de fata, provin din cele mai recunoscute linii germane aflate in actualitate, in arborele genealogic regasindu-se numele celor mai mari reproducatori ai lumii (Scott von Deodatus, Ursus von Batu, Nero vom Nobachtal, Zamp von Termodos, Quenn vom Loher Weg, Pakros d'Ulmental, Hoss vom Larchenhain) care au confirmat de-a lungul anilor prin produsii lor, reproducatori de valoare (Walace aus Agrigento, Dax de Intercanina, Furbo degli Achei, Vegas du Haut Mansard, Paer vom Hasenborn), culminand cu recentii (Arex von der Wilhelmswarte, Etoo aus Wattenscheid, Pepe vom Leithawald, Urbo vom Leithawald, Leon vom Schollweiher). Acestia din urma sunt parinti si bunici ai cainilor nostri. All content of this listing belongs to the Owner in this Listing! Copyright © All Rights Reserved.
