Excellence in German Shepherd Temperament

For 30 years now, we have dedicated our lives to building a foundation of healthy, beautiful German Shepherds. Our litters are very consistent in the type of dog that we have selectively bred for, we have a ZERO compromise policy when it comes to health and temperament with our breeding stock. We breed for a sound minded, family disposition, a German Shepherd who is very loyal and highly bonded to their family, calm and good natured with small pets and children, yet alert and protective of their family without being high strung or needlessly aggressive. We spend countless hours with every litter of German Shepherd puppies born here so we can help to select the best match for your family.
