Vom haus Baysden German Shepherds

<https://schutzhundog.com/index.html>

We have been German Shepherd breeders for over thirty years.

Vom haus Baysden German Shepherds We are a small German Shepherd kennel in Eastern North Carolina near Jacksonville and have been breeding German Shepherd dogs for over thirty years. We produce three to four litters of puppies a year. We only breed dog's that have had their hip's x-rayed and certified by the OFA or the German SV or Schutzhund USA "A-Stamp" program. We only breed dogs from European and Czech working bloodlines. It is our belief that dogs breed from solid German Shepherd working bloodlines have solid nerves and temperament. These are qualities that most folks want in a dog for there family. A German Shepherd pup with good nerves and temperament is less likely to be sharp and aggressive to your friends and their children. Our dogs go thru Schutzhund training. All of our German Shepherd pups are covered by a written guarantee on the puppy's hip's and health. Your German Shepherd puppy will be tattooed in the right ear and have all vaccinations up to date when you pick it up. On occasions we have adult German Shepherds for sale.
