SentinelHarts Working Line German Shepherds

<http://www.sentinelharts.com>

We test and certify all of our dogs with OFA for Hips, Elbows, Thyroid, Cardiac and DNA.

SentinelHarts Working Line German Shepherds Over 15 years of experience raising and working with dogs. Family owned and operated, this is a passion for us. We have a few litters each year as we do not have a kennel full of dogs but a few dogs that we train, work and "live" with. We are happy to answer questions or to assist in any way we can. We are a resource to the people who have bought our puppies for a lifetime, should they want or need it. Our hours are flexible and by appointment. It is important to us that we breed only dogs that pass our health standards. We test and certify all of our dogs with OFA for Hips, Elbows, Thyroid, Cardiac and DNA. We also test for Brucellosis and CERF test our dogs prior to breeding. We put a great emphasis on producing puppies free of Degenerative Myelopathy. Although we put a great priority on health certifications and genetics, we also know that selecting the right male for the right female is equally as important. Lineage, Temperament and Drive play a tremendous part of our successful breeding program. All content of this listing belongs to the Owner in this Listing! Copyright © All Rights Reserved.
