Puppies are vet-checked, vaccinated, and de-wormed.

Shadowbrook Shepherds With a lifetime of experience with the breed, Shadowbrook Shepherds strives to produce puppies of exceptional quality for pet, work and show, with occasional breeding quality puppies available to approved breeding homes. We are proud to be members of the German Shepherd Dog Club of America, and closely follow their standards for ethical, responsible breeding. Our AKC registered dogs come from exceptional German lines, and we follow a very selective breeding program that emphasizes health, conformation, and temperament to ensure that our puppies excel as cherished family pets, family protectors, working and show dogs. We produce four to six litters each year, and strive to improve our lines with each litter. We are active with our dogs, and plan to participate in both conformation and agility in the next few years. We take a great deal of pride and care in ensuring that our puppies have a healthy, loving environment in an attempt to rear well socialized pups.
