### PetSafe Deluxe Bark Control Collar, PDBC-300

You should only use a bark control solution during times when barking is excessive and not more than 12 consecutive hours a day.

Click the Image Directly <sup>^^^Above^^^</sup> for More Information, Current Pricing and Availability. You will not be charged until after you review and complete your order. Durable, waterproof bark-control collar with sound and vibration sensitivity. Patented Perfect Bark detection ensures only your dog's bark will set it off. Low-battery indicator. Battery is included in the collar. 18 levels of correction lets you adjust to your dog's personality. Includes 6-volt battery, instruction manual, and limited lifetime warranty.

**Product Description** You are so thankful for the unconditional love and companionship your dog brings into your world, but the volume level has been on the increase and you aren't a fan. With the three programmable modes, you set the level for your pet. Even when he seems to always have something to say and barks nonstop, the Bark Control Collar uses harmless static correction to help your dog be quiet. If she continues, the collar increases a level with each bark. You are in desperate need of peace and quiet and the Deluxe Bark Control Collar can help your dog give it to you.

**How it works:** The Deluxe Bark Control Collar helps you train your dog and control her barking habits. A harmless static correction is administered through the contact points when the collar detects both vibration in her vocal cords and the sound. It begins on the lowest level of correction within each of the three modes. If she continues to bark, the collar increases one level each time she barks within 30 seconds of the previous bark. Each correction mode has six levels. If your dog does not bark within the 30 seconds, the Deluxe Bark Control Collar will reset itself to the lowest level of correction in the selected mode. Along with each correction, the LED Indicator Light will flash. The collar was designed for pets 8 lbs. and up. You will find it is quick and efficient in teaching your dog to be quiet.

**Includes Perfect Bark technology:** The Deluxe Bark Collar features the PetSafe patented Perfect Bark technology. Because vibration and sound sensors discern between your dog's barking and other external noises including barking from other dogs, only your dog's bark causes a correction. This is key to ensure your dog understands how the collar works. Additionally, if your dog barks 15 times or more within a 50-second period, the Deluxe Bark Control Collar will shut off automatically for three minutes. This is a safety feature designed to ensure that if your dog is really motivated to bark under a special circumstance, they won't continue to be corrected.

**When using your Deluxe Bark Control Collar for the first time,** fit the adjustable strap to your dog and wait nearby until he barks. Most dogs will quickly understand the new sensation is telling her to be quiet and it will go away when she is quiet. As a result, she will stop within a few barks.

**\*You should only use a bark control solution during times when barking is excessive and not more than 12 consecutive hours a day.\***

**Product Features:** Dogs 8 lbs. and up can use the Deluxe Bark Control Collar. Three correction modes with six levels each allow you to set the collar to the right mode. The durable, waterproof design. Patented Perfect Bark technology ensures she is never corrected for other loud noises. Both automatic and manual modes allow you to select whichever is best for your pet. A good/low battery indicator lets you know when it needs a new power source.

**What's in the Box:** 1 PetSafe Deluxe Bark Control Collar, 1 PetSafe RFA-67 Battery, 1 Operating Guide.

**Product Description** The Deluxe Bark Control Collar has a unique dual-detection, using both vibration and sound sensors to discriminate each bark from other external noises. The most reliable bark detection technology available. Durable, waterproof bark-control collar with sound and vibration sensitivity. Patented Perfect Bark detection ensures only your dog's bark will set it off. Low-battery indicator. 18 levels of correction lets you adjust to your dog's personality.
