Practice Broad jump

Complete Practice Broad Jump set includes the jump boards as well as 4 marker poles

Click the Image Directly ^{^^^Above^^^} for More Information, Current Pricing and Availability. You will not be charged until after you review and complete your order. Complete Practice Broad Jump set includes the jump boards as well as 4 marker poles. The boards are variegated in size, both in ascension, and in length. Assembled sections are ready for use, just set the marker poles in the corners and go. Panels conveniently nest inside each other for compact storage and portability. Included Jump chart to match your dogs' size with the recommended width of the jump. Product Description: The Broad Jump is a common obstacle in all levels of agility, and obedience. The challenge of this strange looking jump is for your dog to jump over the boards, in between the 4 marker poles, not run on top of it or sideways through the poles. Also called the Long Jump, its challenge is for your dog to jump over the boards, between the marker poles. Our Practice Version of the Broad jump features boards that are weatherproof vinyl & plastic, which are designed to nest inside each other for compact storage and portability. Each set has four boards, how many you use depends on your dogs size. Comes with 4 marker poles that are inserted into sleeves on the boards so you can use this set indoors or out, and when you want to quickly move the set. Colored tape is included to put stripes along the sides and on the poles.
