Are you listening? More important are you WATCHING? Dogs are attempting to communicate with humans as well as other dogs all the time. It's up to us to learn how to interpret their native language the language of body movement, facial expression and proximity to things and other beings. Canine Body Language is an exhaustive photographic documentation of dogs in their day-to-day activities: dogs alone, dogs together, dogs in the water, dogs having fun, dogs that are stressed and dogs in relation to human beings. In addition to the incredible photographs, author Brenda Aloff gives the reader detailed descriptions of what is happening in each photograph so that you can build your canine vocabulary. Never look at dogs in the same way again!
