German Shepherds Bulgaria

Wolpertinger Wald The story began on a snowy January night in 1997. when we arrived home female German Shepherd Bertaluchi. As a long-awaited and desired gift she immediately became a favorite of the family. A small and cute puppy with time it has become a big, strong, beautiful and extremely smart, and vulnerable to the dog training. As heir to one of the best German and Czech bloodlines she had inherited as a good exterior and excellent working properties. Unfortunately Bertha left us too early, but what we give it something that keeps love to breed to this day. This site as well as my overall work are dedicated to breed her! My goal is breeding dogs for me to have exactly those qualities that made me and my family loving breed. I wish every one of my puppies to their new owners donated at least a fraction of what it gave us, and this is possible only through proper and edinstvenno selection and recruitment of physically and mentally healthy maximum conforming to the breed standard dogs.
