Chambo's Black German Shepherds

<http://www.chambos-black-german-shepherds.ca>

Chambo's Black German Shepherds are raised for temperament & intelligence.

Chambo's Black German Shepherds are raised for temperament & intelligence. Doreen Davies, owner of Liftlock Bed and Breakfast has had German Shepherds for over 30 years and has done extensive obedience training with them. Breeding puppies is not her livelihood, it is her passion. Each pup is given individual attention in order to access their personality. Before the pups leave for their new home, they are paper trained and crate trained. They will also have been taught bite inhibition, to come when called, and how to go up and down stairs. All Chambo German Shepherd puppies are black, CKC registered, microchipped and have their first needles before they leave. New owners are given a crash course on obedience training with on-going help if needed. All content of this listing belongs to the Owner in this Listing! Copyright © All Rights Reserved.
