Old German Shepherds from The Möhnesee and the Black Dream

Long coated German shepherds "vom schwarzen Traum" "A dog can express more with his tail in minutes than his owner can express with his tongue in hours." Quote by unknown author My name is Uwe Heidergott and I breed these beautiful long coated German shepherd dogs in Germany in my kennel "vom schwarzen Traum". I made my childhood dream come true with this kennel of dogs. My breeding dogs are Banja vom Möhnesee and Kito vom Böhmerwald. My first stud dog was Ork vom Isländerhof; he was called Shadow. Unfortunately, this exceptional dog, my best friend, had to leave me way too soon and has gone over the rainbow bridge. In the Dog Cemetery Shadow has found his peace on my homepage. When I started breeding, I asked myself, how do I want to breed: with respect to quantity or quality?? Would you like to breed fighting dogs or dogs that live in a family setting and who are, nevertheless, vigilant and protect you? I have decided to go for quality! My wife and I start working with the puppies already on the second day after their birth. In the Puppies section of my Forum you can see how I work with my puppies. My breeding dogs are HD and ED free, which has been certified by an independent expert. Yours Uwe Heidergott Alle Inhalte dieser Auflistung gehört der Besitzer in dieser Auflistung!
