Click the Image Directly ^^^Above^^^ for More Information, Current Pricing and Availability. You will not be charged until after you review and complete your order. Offered By The Manufacturer/Inventor - Size 4.0 - LG fits Dogs With A Rib Cage From 34 - 36 Inches And A Weight From Between 76 - 95 LB. Stress Is Placed On The chest Instead Of The Neck Of Your Dog. The Tether Leash Is Adjustable And Allows For Movement, Sit, Lay, Stand. Easy To Use And Can Be Left On All Day In And Out Of The Car. Designed With Input From A Veterinary Orthopedic Surgeon And Design Engineer. Product Description: Ruff Rider First Opened In 1996. Later That Year, Ruff Rider's Roadie Was Awarded Top Choice And Product Of The Year By Your Dog Magazine Of Tufts University School Of Veterinary Medicine. Roadie Canine Vehicle Safety Harness Allows Your Dog To Sit, Stand, Or Lie Down Safely While Tethered To The Vehicle Seat belt System. Your Pet Can Do Anything On The Seat While Wearing The Roadie That He Can Do With It Off....Except Fly Through The Vehicle In An Accident Or Sudden Stop. The Short, Yellow Walking Leash On The Back Of The Safety Harness Has Two Openings. Simply Pass The Vehicle Seat belt Through One Of The Openings And Clip It Into The Vehicle Seat belt Buckle. The Opening Closer To The Back Of The Dog Will More Limit The Amount Of Movement - Pick The One That Works Best For Your Pet. The Roadie Is Orthopedically Sound And Ergonomically Correct. The Design Received An 18 Claim Broad Based Patent In 1996. Later Goldberg Was Awarded 2 Additional Patents. Independently Tested At Commercial Test Labs In Denver The Wide Webbing Used For The MED, LG And XLG Models Have A Breaking Strength In Excess Of 6,000 Pounds, SAE Standards For Human Seat belt Webbing Is 5,000 Pounds. And The New Design Was Crash Tested At AZT Automotive, GmbH, Allianz, In Munich, Germany Using Their Unique Crash Test Dummy Dog. Roadie Finished As One Of The Top Three Safety Harness In C.P.S. Testing. The Roadie Safety Harness Fits Dogs From 6 To 150 Pounds. You Can Use A Roadie In The Cargo Area But It must Be Securely Attached Using The Child Safety Seat Anchor Also Called ISO-LATCH Or ISOFIX, Which are Metal U-Shaped Anchor Points Located At The Top Or Rear Of Seat-Backs Or Between The Area Where the Seat-Back And Seat-Base Meet. Or You Can Use The Removable Seat-Mounting Brackets Or Floor Mounted Tie-Downs In The Cargo Area. You MUST Use A Locking Carabiner, 22kn, Or Greater, To Attach The Roadie To The Anchor.
