### Breeding German Shepherds for Quality , NOT Quantity !

History I AM PROUD TO BE A BREEDER: A Breeder ( with a capital B) is one who thirsts for knowledge and never really knows it all. One who wrestles with decisions of conscience, convenience, and commitment. +A Breeder is one who sacrifices personal interests, finances, time, friendships, fancy furniture, and deep pile carpeting! She gives up dreams of a long, luxurious cruise in favor of turning that all important show into this years „vacation“. +A Breeder goes without sleep (but never without coffee!) in hours spent planning a breeding. Or watching anxiously over the birth process, and afterwards, over every little sneeze, wiggle, or cry. +A Breeder skips dinner parties because that litter is due or the babies have to be fed at 8. She disregards birth fluids and puts mouth to mouth to save a gasping newborn, literally blowing life into a tiny, helpless creature that may be the culmination of a lifetime of dreams. +A Breeders lap is a marvelous place where generations of proud and noble champions once snoozed. +A Breeders hands are strong and firm and often soiled, but ever so gentle and sensitive to thrusts of a puppy's wet nose. +A Breeders back and knees are usually arthritic from stooping, bending, and sitting in the birthing box, but are strong enough to enable the Breeder to show the next choice pup to Championship. +A Breeders shoulders are stooped and often heaped with the abuse of competitors, but they are wide enough to support the weight of a thousand defeats and frustrations. +A Breeders arms are always able to wield a mop, support an armful of puppies, or lend a helping hand to a newcomer. +A Breeders ears are wondrous things, sometimes red ( from being talked about) or strangely shaped (from being pressed against a phone receiver) often deaf to criticism, yet always fine tuned to the whimper of a sick puppy. +A Breeders eyes are often blurred from pedigree research and sometimes blind to her own dogs faults, and are always searching for the perfect specimen. +A Breeders brain is foggy on faces, but can recall a pedigree faster than an IBM computer. It's so full of knowledge and can sometimes blow a fuse: It catalogs thousands of good GENETICS such as perfect ears, heads, sound temperament, outstanding train ability, Intelligence, strong nerves, excellent health with longevity and beautiful harmonious anatomy...and buries in the soul the failures and the ones that didn't turn out. +A Breeders heart is often broken with each beloved generation held in their arms that passes over the Rainbow bridge, but it beats strongly with hope everlasting for the next....and it's always in the right place! Oh yes, there are breeders, and then, there are BREEDERS! WOLPERTINGER WALD History The story began on a snowy January night in 1997 . when we arrived home the female German Shepherd Bertaluchi. As a long-awaited and desired gift she immediately became a favorite of the family. Small and cute puppy with time it has become a big, strong , beautiful and smart and extremely susceptible to dog training . As heir to one of the best German and Czech bloodlines she had inherited as a good exterior, and an excellent performance . Bertha unfortunately left us too early , but it gave us it 's what keeps the love of the breed today. This site as well as my overall work with the breed are devoted to it! My goal is bred dogs than I have exactly those qualities that made me and my family loving breed. I wish every one of my puppies to donate their new owners at least a fraction of that which she gave us , and this is possible only through proper and edinstvenno selection and selection of physical and mental health maximum complying with the breed standard dogs. In 2006 I submitted four dogs ( 1 male and 3 female) from Germany which formed the basis of breeding in officially registered on 29.01.2007 in kennel BOGOK - BRFK - FCI under the name : WOLPERTINGER WALD All content of this listing belongs to the Owner in this Listing!
