The Convert harness is designed with practicality in mind. Built to be street- and trail- ready, it boasts a simple, utilitarian design that combines comfort with style. Durable materials and innovative construction ensure safety and a secure fit. Sleek and understated, the Convert harness is also stylish. The Convert harness keeps your dog safe and comfortable, so the both of you can focus on all the fun you're having outside. The sturdy and rugged Convert harness has many functions. It provides security and pinch-free restraint for hikes. It can withstand substantial resistance, because it distributes the load across the chest and around the sides, rather than pulling across the throat the way a traditional collar does. You and your dog can tackle anything. Your dog harness should be able to do the same.
