**EzyDog Chest Plate Harness sizing chart.** The Perfect Fit for Safety, Comfort and Control

The EVA Chest Plate forms to the dog's chest for a custom fit. It provides a vertical load dispersement; which provides greater control than a traditional harness. The fit of the harness makes backing out of the harness extremely challenging for most any dog. Reflective trim allows for night time visibility and the included Seat Belt Restraint keeps your pup restrained in the car.

**Active Dogs** The Chest Plate Harness is the perfect dog harness for training, walking, running and cycling. The added control and comfortable fit allow for ease of movement and more enjoyable outings.

**Loaded with Features** Ergonomic EVA chest plate forms to your dog's chest for a custom fit. Easy to adjust straps create a snug, secure fit. Reflective stitching provides enhanced nighttime visibility. Sturdy clasps make putting it on fast and easy. A rust-proof welded D-ring for leash attachment. Very difficult to back out of. So many colors to choose from. Seat Belt Car Restraint Included.

**Why Choose an EzyDog Chest Plate Harness?** The Chest Plate Harness excels in fit, safety, comfort and control. It's a great match for every dog. The harness is even comfortable enough for all day wear. For the best control, use it with an EzyDog Shock Absorbing Leash.
