Working German Shepherd Dogs

Zu Treuen Handen I see the German Shepherd Dog first and foremost as a working dog, sound in mind as well as in body. I want a dog that can follow me around the fields for 8 hrs. and then go and train in the evening. High drive in work or play, but quiet and relaxed in the house. Dogs that have the nerves, drives, sound joints and health for years of service in whatever field their handler chooses. Dogs with real power and fight in protection, but that believe children were put on the planet just to play with them. A dog that truly wants to work for me and with me. This is the type of German Shepherd Dog I strive to produce.
