Letters are woven right into the leash so the lettering can't rub off. Help you identify your service dog to others. Product Description It's so short - at only 36" long it's probably one of the shortest leashes you've ever seen. But that's the point... ..unlike leashes made for pets, we had our leashes custom made to our specs to keep your service dog close by and not wandering around. This leash is specially designed to help you identify your service dog to others. And we all know that the more identification your service dog has the less hassles you receive. A really unique feature in this leash is that the letters are woven right into the leash with black and white threads so the lettering can't rub off. *** Please note this leash is only for use with service dogs, not emotional support animals. *** In other words, if you have an ESA don't buy this leash. Falsely representing a pet as a service animal is a federal offense.
