Click the Image Directly ^^^Above^^^ for More Information, Current Pricing and Availability. High-performance doggy flotation vest Adjustable neoprene straps form an ergonomic, secure fit Reflective detailing provides better nighttime safety Durable construction keeps up with your dog Ergonomic grab handle makes it easy to handle your dog Center weighted grab handle Reflective trim to enhance visibility The neoprene handle is perfect for slipping over the wrist or holding in the hand and distributes load for decreased "pinching" Two Neoprene belly straps for a customized fit Product Description Size: 11 Color: Red Amazon.com EzyDog Doggy Flotation Device (DFD) Combining advanced manufacturing techniques and the highest performance materials available; EzyDog has set the benchmark for K9 products with the Doggy Flotation Device (DFD). The DFD's have been designed and extensively tested to give your dog the most ergonomic and comfortable fit possible. EzyDog Doggy Flotation Device (DFD) sizing chart. Maximum Floatation The EzyDog DFD uses up to 50% more flotation material than many others on the market. After all, shouldn't a float vest float? Our unique ultra-bouyancy foam is strategically positioned within the vest to keep your dog in a natural swimming position at all times. The Doggy Flotation Device does not hinder your dogs' natural movement and can be quickly and easily fastened and removed. Safety and Comfort Neoprene Belly Straps create a comfortable and custom fit so you can let them swim with confidence. A center weighted grab handle makes it easy to carry them over any fallen obstacle or scoop them away from danger. Reflective trim keeps makes them visible in all levels of light. A Fit for All Breeds For best fit measure the girth of the dog. This is the area around the dog at the widest. Measure the general back length of the dog. Girth will take priority when selecting a size. For Dogs under 15 pounds, check out the EzyDog Micro DFD.
