Chlorhexidine PS Shampoo is formulated with antiseptic foaming solution

Click the Image Directly ^{^^^Above^^^} for More Information, Current Pricing and Availability. You will not be charged until after you review and complete your order. Chlorhexidine PS Shampoo is formulated with antiseptic foaming solution. Contains chlorhexidine and phytosphingosine salicyloyl (0.05%), lipacide c8g (2.5%) and chlorhexidine (3%). Chlorhexidine has strong antiseptic activity. Phytosphingosine salicyloyl is a modified pro-ceramide which possesses antiseborrheic properties to control cutaneous disorders associated with pyoderma. Protects the skin from irritations and loss of moisture. Product Description: Antiseptic lathering solution formulated with gentle hypoallergenic cleansing bases (pH = 7) and chlorhexidine, climbazole and phytosphingosine. Indicated for use on cats and dogs for topical and adjuvant management of superficial and severe pyoderma, and of dermatitis caused by Malassezia. Chlorhexidine has a strong bactericidal and bacteriostatic activity on both Gram-positive and Gram-negative bacteria. Climbazole is an imidazole compound that is active on most pathogenic fungi and yeasts (Malassezia pachydermatis). Phytosphingosine-salicyloyl is a modified pro-ceramide that possesses anti-inflammatory and anti-seborrheic properties. It helps control the cutaneous disorders associated with pyoderma.
