When we imported our Long Coat German Shepherds Ontario....

Royal German Shepherds When we imported our Long Coat German Shepherds Ontario we were not only driven by the beauty of GSD but by their intelligence, temperament and behavior as well. When caring for our German Shepherd puppies we not only make sure they are raised in the loving environment but we make sure the pups are raised at home with children, other animals and lots of hugs. As a German Shepherd Breeder we put a lot of importance on their physical wellness as well and we make sure they stay in excellent health by feeding them only organic food. Our German Shepherd Dogs have the extensive health testing and the hip and health guarantee. German Shepherd male and females are imported from Europe and not one but both parents have 1st place in the in the World Class Championship in Germany. Both females and males are on site for viewing. They are large structure build with big chest and head size and beautiful deep red and black colors and ofcourse our German Shepherd Puppies have the beautiful long coat too!
