German Shepherd Dog Portrait Drawings

About The ArtistMy name is Heather I reside in the western part of Pennsylvania(US) and have been into visual art ever since childhood, especially drawing. I never imagined not doing anything without art in my life even if it may be a hobby more than anything.Besides my love of art; I have always had a passion for animals, dogs namely just as much. I currently own two dogs: a purebred Lab named Hanna and a working-line German Shepherd named Sam and one DSH cat named Beefy. Animals have been a part of my life as long as I can remember and plan to own them for the rest of my life. I have even volunteered and worked with animals over the years, including horse riding at one point. I hope to do things with animals again in the coming future.Besides German Shepherd Portrait Drawings I also create Drawings for all Breeds.
