Working dogs for K9 units

LucasK9 Working dogs for K9 units When I am testing dogs, I try to do it to the highest standard. I always film the testing when I see the dog for the first time so you can see the behavior of the dog as I have seen it. I test all of my dogs in many different environments to make sure that all dogs are sound and social. I then have x-rays done and a blood test done for liver and kidney functions as well as blood oxygen test. Once the dog has passed all drive and health testing I can ship him to the client. At Lucas k9 we pride ourselves on having a very reasonable price for our dogs. I have worked training police K-9s in the USA and when I came back to Poland I started testing dogs for American police training. At this time I work only with dogs. I have worked with trainers in the United States and have learned how to test dogs and select only the very best dogs to ship to my clients.
