Dremel 7300-PT 4.8-Volt Pet Grooming Kit

Rotary tool provides a safe, effective, less stressful alternative to clipping

Click the Image Directly ^{^^^Above^^^} for More Information, Current Pricing and Availability. Rotary tool provides a safe, effective, less stressful alternative to clipping. Two rotation speeds let you safely and carefully grind nails in stages. Cordless operation for optimum control. Compatible with an array of Dremel sanding drums and bands. Backed by a two-year warranty, 3-hour charger. Product Description: The Dremel Pet Grooming Kit offers a safe, effective way to keep your pet's nails neat and trim. Rather than risk damage and discomfort with clippers or scissors, use the kit's rotary tool for painless, easy grooming of your pet's nails. The rotary tool gently grinds down claws using speeds that are appropriate to the task. And because it is cordless, the rotary tool provides optimum control over the grooming process. Pet Grooming Kit At a Glance: Rotary tool provides a safe, effective, less stressful alternative to clipping. Two rotation speeds let you safely and carefully grind nails in stages. Cordless operation for optimum control. Compatible with an array of Dremel sanding drums and bands. Backed by a two-year warranty. A Safe and Painless Alternative to Clipping: Using clippers and scissors to trim your pet's nails can cause splintering, cracking, or bleeding--all of which can lead to discomfort and pain for your pet. That's why the Dremel Pet Grooming Kit features a rotary tool that provides a harmless alternative to clipping. Offering two speed settings--5,000 and 13,000 rpm--the 4.8-volt rotary tool lets you safely and carefully grind down your pet's nails in stages to avoid cutting the quick. Lightweight, Cordless Design: The Dremel Pet Grooming Kit's compact rotary tool has large, easy-to-operate controls. And because the rotary tool is cordless and lightweight, you can groom your pet's nails anywhere with optimum precision. Do-it-Yourself Grooming: To use the Dremel Pet Grooming Kit, simply secure your pet in a comfortable position and make sure any long fur is safely out of the way. Use one hand to support the toe and claw and the other hand to operate the rotary tool. Without applying pressure, allow the rotating drum to grind each nail for up to three seconds, making sure to alternate between all the nails on each paw. Frequently switching nails during grinding keeps your pet comfortable and prevents nails from getting too hot. Easy Drum and Band Replacements: Replacing the Dremel sanding drum or band is a cinch with the kit's included wrench. Using approved accessories for this pet grooming tool is recommended. For Dremel sanding drums, use 407 and 430; for Dremel sanding bands, use 408, 431, 438, 445, and 446. What's in the Box: 4.8-volt cordless rotary tool and wrench. Featuring two operating speeds and large, easy-to-use controls, this cordless rotary tool is ideal for grooming your pet's nails. From the Manufacturer: The use of dog nail clippers can be painful for your pet. The Dremel pet nail grooming kit allows you to quickly, easily, and safely trim your pet's nails. With easy to follow instructions included in the kit, you'll be grooming pet nails in minutes.
