#### Home Raise German Shepherd puppies

Shelley's German Shepherds Our German shepherds come from some of Germany's finest bloodlines. All of our imports are sound minded, intelligent, confident, loyal, and well socialized. They are excellent family companions, personal protection, show, agility, and working class dogs with excellent pedigrees. We realize that many people are drawn to this breed for various reasons. This breed has a tremendous working drive. We try to nurture the dog's temperament and focus to be great companion dogs. It is important to us that our litters go to loving homes. THE SECRET OF OUR SUCCESS We provide home raised socialized German shepherd puppies. Our German shepherd pups are smart, gorgeous and loving family companion. We feel that it is important for the puppies to have hours of interaction with people on a daily basis and to interact with the other German shepherds here at Littleton German Shepherds. We believe that socializing the pups from the start will ensure a smooth transition for the puppy and owner. We raise our German shepherd puppies on the belief of the Critical Periods here at our Kennel. Our dogs are truly a pack of dogs that live together and help with the puppies and keep the pack order. It is a beautiful sight to see the dogs running in sync with one another. To seeing them rest, playing or laying around with each other. Here at Littleton German Shepherds, it's all about our kids and our German shepherds.
