### Female German Shepherd, Black

#### Need Rehoming for an 11 month old Female German Shepherd

Isis is a beautiful and graceful female german shepherd born on April 17, 2016, registered. She is loyal, friendly, affectionate, but extra sensitive, which makes her reactive to the overly stressful conditions of our family (three young kids). She needs a home where she will have more freedom, have lots of fun with her human companion, as she is a joyful and playful dog with lots of energy. She can also be very calm and cuddly. Quite a catch for the right family. In need of a positive reinforcement type person that likes to have fun and play soccer
