"Carrying the Cross for the love of both Shepherds"

Allen German Shepherds At Allen German Shepherds, we raise our shepherds on a spacious 19 acre ranch with plenty of woods ,nature, ponds,horses and great socialization tools that will help your new family member to be ready for life in any venue of your choosing. Since socialization begins at birth, we believe in the importance of exposing your pup to a setting like ours .And in our opinion this is unmatched by rural breeders. We understand & believe this and so we prepare your pack AGS in many proven ways that will only enrich the lives of the family and the new shepherd, as they mature and become more prepared for their permanent environment we know from are many years of breeding you are going to be blessed. Our roots are the family, but we have been called by many as the top kennel in SC that offers family champion pets to all American Patriot's. We are known as being trustworthy, dependable, steadfast and go beyond most in ensuring and keeping our commitments and we have been for years and will continue to grow in knowledge of the shepherd and how to ultimately breed for the best shepherd for you. This is a security many can not offer and since we are in fact a respectable kennel as well as a family run & operated kennel, our means to provide your puppy with a promising future is not just words-but is backed up by evidence from years of providing families -just like yours, horse ranches, military men & women, police officers, rehabilitation services and many others with their AGS!
