#### German Shepherd Protection Dogs

Pinnacle Protection DogsAt Pinnacle Protection Dogs, all of our canines are trained with one goal in mind – keeping you and your loved ones safe. That is why we specialize in dogs trained for civilian defense over military, police, or sport training. You are getting more than protection from a protection dog; you get a dedicated family member that is comfortable around children and at ease traveling with you wherever you go. Whether you're at the park, on a city street, in a shopping center, at your office, or even in your living room, your Pinnacle Dog is always ready to protect you. Our Protection Dogs are different due to our training and selecting the right dogs. Not all dogs can be protection dogs. Training even the most capable dog can take years, but the first step is to choose the right dog with the right temperament. This is why we only work with the very best breeders. While some trainers only train German Shepherds, we train a large variety of different breeds. Take a look at our featured dog section to see a few of the dogs we have available for immediate sale and in-home delivery.
