Southern New England's breeder specializing in AKC Purebred White German Shepherds

ASJ White Shepherds We love what we do. We do it for the breed. ASJ White Shepherds™ started in 2010 with the acquisition of the first of our foundation stock, Samson. Fast-forward two years with a new house, lots of fencing, and a bit of trial-and-error and we finally were able to deliver our first litter of six beautiful White German Shepherd puppies. Since then we have stayed true to our founding concepts: To raise AKC White German Shepherds for companionship and pleasant dispositions for families with discriminating taste and a love of the breed. Our White German Shepherd dogs are family dogs, NOT 'kennel dogs', and we will not sell a puppy into an environment who cannot give the dog a place of love and comfort as a member of their forever family. We give our White German Shepherd puppies the best start we can provide: they are touched by human hands within 10 minutes of birth and are raised underfoot in our home until the moment they leave us. Our White German Shepherd breeding stock is tested and rated by OFA (Orthopedic Foundation for Animals) so as to pass along to our puppies the best chances of a healthy life lived pain-free from hip dysplasia. We provide a pleasant, informative, honest, and pressure-free White German Shepherd puppy buying experience. We do not 'sell puppies', we make families more complete with the addition of a smart, loyal, dedicated, and beautiful dog who will love you forever.
