## Lagerfeldt German Shepherds

<https://www.lagerfeldtgsd.com>

As a small family-run kennel, our aim is to produce healthy German Shepherds

Lagerfeldt German Shepherds Seeing the two together, and raising Déjà from a puppy, brought Jackson and Laini so much joy. Drago and Déjà became the centre of their world and they realised how much happiness dogs can bring to a person's life. Having two German Shepherds and an interest in the breed led Jackson and Laini to further research the path to becoming a registered breeder, and why improving the German Shepherd breed is so important. As time went on, they decided to look for a beautiful home to purchase. Top of the priority list when looking at different properties on the market was sufficient acreage so Drago and Déjà had plenty of room to run and play. In 2020, Jackson and Laini found the perfect place- Heidelberg- where we all reside today! Our German Shepherd family has grown in the last 18 months, as has our understanding of what it takes to breed healthy German Shepherds with sound temperaments. Our dogs are raised in a loving home environment, and are all physically, mentally and genetically sound. As a Disability Support Worker, Jackson often takes our German Shepherds with him to work and has seen the positive impact our dogs can have on the people he supports in many different areas. Our dogs have been hip (A) and elbow (Z) scored through the German Shepherd Dog Council of Australia (GSDCA) and we have DNA screened for hereditary diseases. We are members of Dogs New South Wales and the German Shepherd Dog League of NSW. We are a small, family-run kennel, located in rural New South Wales. Our puppies will be suitable for a wide range of functions whether it be the perfect family pet, for showing, security, companionship or other work. Dogs NSW Membership Number: 2100097169
