Beautiful Black & Reds and Solid Black Showlines

Vom Weidenhaus German Shepherds I have been breeding German Shepherds since 1994. I have been around them my whole life, We grew up with Shepherds, and always had one as a part of our family. I started to get into West German Showlines in 2002 when I purchased my first male Showline. Shane introduced me to this wonderful line. I breed to the German SV standard, we don't have HUGE "King Shepherds", we have dogs that are bred to do the work. They are after all a working dog. We have now started to introduce the Black Showline German Shepherds into my breeding program. I have imported 2 Margman Yan daughter's to get a nice solid Black line started. We have some super Import black pups that are working on a future show career currently.
