Working German Shepherd Dogs

Wildhaus Kennels My name is Chris Wild and, like many, I grew up with German Shepherd Dogs. Thanks to my parents, a lifelong love of German Shepherds was instilled in me early on and, for me, there has never been any other breed. Now, together with my husband and fellow GSD lover, Tim, I have a small breeding program in rural southern Michigan. Here we enjoy raising and training our dogs for participation in various dog sports and working dog activities, developing and maintaining an exceptional breeding program of working bloodline German Shepherds, and above all sharing most every aspect of our lives with these wonderful dogs. We have been actively training and titling our dogs for many years, and while schutzhund is our primary pursuit, we also participate in UKC Dogsport, Service Dogs of America, Rally, Obedience and Tracking. We value these activities as sports and breed tests for working GSDs, but most importantly as enjoyable and challenging hobbies to share with our dogs. We have trained and titled several dogs in several venues, and also have experience in the training of police K9 tracking, patrol work and drug detection through assisting several law enforcement officers with the training of their canine partners, and raising and imprinting young dogs to be placed into service with the Michigan State Police.
